## Finishing Touch Goat

### HN402

*Developed for finishing meat goats*

*1/8" pellets for easy consumption without sorting*

*Start feeding at about 75 to 80 lbs depending on condition*

*Promotes muscle mass, firm touch and firm condition across the ribs*

*Ammonium Chloride added to promote urinary health*

**HighNoon Feeds** developed a show goat feed specifically for finishing meat goats. This feed will exceed the demand for peak performance in the show ring. **FINISHING TOUCH** is made in a 1/8 inch pellet for easier consumption. You will soon see why we came up with the name of this feed once you start feeding it. **FINISHING TOUCH** gives your goats mass, muscle development and firms touch without that extra soft condition over the ribs. Incorporating **HighNoon's Top Dresses** in your feeding program will help to get that show ring look and touch.

#### Guaranteed Analysis:

#### Feeding Directions

#### **Billy The Kid Finish Touch Goat hn402**

Decoquinat.....22.7grams/ton

Crude Protein	min	20.0%
Crude Fat	min	4.0%
Crude Fiber	max	15.0%
Calcium	min 0.7%	max 1.2%
Phosphorus	min	0.6%
Salt	min 0.25%	max 0.75%
Selenium	min	0.3 ppm
Vitamin A	min	13,000 IU/lb.

Feed two pounds per 100 pounds of body weight to supply 22.7 mg of Decoquinat per 100 pounds of body weight. Start your meat goats on **FINISHING TOUCH** at about 75 to 80 lbs depending on condition. Mix in equal parts with the feed you are currently feeding and gradually increase **FINISHING TOUCH** over a week period until your goats are completely switched over. At this time it is a good idea to start top dressing about 4 oz. of **HIGH GLO** or **Original Glo** per head per feeding along with **FINISHING TOUCH**. Always provide clean, fresh water daily for better health and feeding results.
