Ewe Plus

hn106

Very versatile feed

Can be fed as a flushing ration

Increase milk production when ewes are nursing lambs

Putting condition on ewes and rams when needed

HighNoon Feeds™ Ewe Plus is a great versatile feed that has many applications. **Ewe Plus** can be fed as a flushing ration to help bring your ewes into estrus, but it can also be used as a conditioner feed for ewes that need to put on a little more fat condition before lambing time. **Ewe Plus** makes a great feed for ewes already with lambs to maximize milk production and butterfat content. **Ewe Plus** can be fed to your rams after breeding season to get them back up to proper condition for the winter. You can easily see there are seemingly endless uses and applications for **Ewe Plus**. However you use **Ewe Plus** in your mature sheep feeding program, you will quickly be convinced that **Ewe Plus** is essential for success with your breeding program.
