Max Start Plus

Lamb Creep hn102

Early consumption.

Maximum growth.

Blooms lambs quickly.

Great for early sale lambs.

Helps get lambs through periods of stress.

MAX START PLUS is designed to get your lambs started onto a creep program quickly and lead them toward maximum growth. One feature of **MAX START PLUS** that makes it unique is that it will bloom your lambs quickly without giving them that sloppy fat and rounded look that is so hard for feeders to get rid of later on. **HIGH NOON FEEDS** understands the need for a creep feed for producers who market lambs in early sales and require more bloom out of a feed to get the lambs through the stress of sales. **MAX START PLUS** is that feed. Everyone knows that bloom sells whether in the barn or in the sale barn. If you need that extra bloomy look, **MAX START PLUS** will not disappoint you.

Guaranteed Analysis:

Feeding Directions

Max Start Plus hn102

Active Drug Ingredient

Decoquinat.....22.7 grams/ ton
