Oklahoma Mix

Lamb Creep hn107

Developed for range lambs and lambs exposed to outside elements.

High energy feed to maintain bloom and build condition.

Mixed with your creep mix, will add more bloom and energy to lambs.

Quicker bloom for lambs going to early sales.

With ever changing times in the livestock business, we at **HIGH NOON FEEDS** recognize the fact that we have to stay up with what people want in a product for their animals. Oklahoma club lamb producers have always been on the cutting edge when it comes to getting lambs ready for show and sale. We have paid close attention to what their feeding needs are. **OKLAHOMA MIX** has been very successful over the past year in many programs through-out Oklahoma and now we are making this great lamb creep available to all **HIGH NOON** customers. The high energy in this creep feed makes it ideal for lambs that cannot be inside all of the time. **OKLAHOMA MIX** will help maintain bloom and even build condition on your lambs to help them stay in sale condition. Add **OKLAHOMA MIX** to your younger lamb's creep mixture to increase the fat in their diet several weeks before a sale if more bloom is needed.
