

HIGHNOON FEEDS®
"IT'S WHAT YOU FEED THEM"

Robin's Easy Keeper HN209

A complete feed for growing and developing beef

Robins easy keeper? Robin Rutt approached us about making a different feed than anything on the market.... She said with some of these easy keeping heifers, feeders are adding lots of pulp, hulls and oats to their base feed to keep them looking right without getting fat , but by doing that they are not having a balanced diet. So we put together the first NO corn/barley based feed. If you want a feed that will blow the guts out in a calf and yet keep them fresh and not put on a lot of weight then look no further.. We are proud to have Brent and Tina at Vision Angus giving us a big thumbs up on this new feed.
