

HIGHNOON FEEDS®  
"IT'S WHAT YOU FEED THEM"

# Fresh Look

Fresh Look is more than just a typical shake. Fresh Look is a high powered shake that delivers to your animal the necessary nutrients before a show when you are trying to manage weight gain. At critical times like that you need a product that will hold your animal together and fresh look will do exactly that. Fresh Look is also a great product to use on your animals several weeks before your show on a consistent basis to give your animal a dynamic look and freshness that tells the judge come pick me. Fresh Look stands alone but also will enhance the results when added to other shake mixes. Once you use Fresh Look as a shake or feed additive you will understand why so many successful programs depend on this great product.
